Dear Jim, Attached FOIA request of State Dept. 1/20/78

State has been stonewalling my PA request.

I reminded them recently without receiving any response.

Therefore I use another method of persuading them to live within the law, a little added work.

I have been meaning to do this for some time but it slipped my mind.

If I did not have what I regard as good reason to believe the request represents reality I would not be filing the request.

My source does not have personal knowledge but received it from one who had personal knowledge when employed by the State Department.

Best,
